

BrassCraft Toilet Replacement Parts.

Because It's What You Can't See That Matters.

BrassCraft has expanded its toilet repair line to now include replacement flappers and parts for many popular brand toilets. These replacement parts are the same recognizable yellow you've come to know from BrassCraft's line of Hornet® flappers, but the similarities don't stop with the color. Our replacement parts are made of the same durable material as our Hornet® flapper – engineered to resist harsh chemical environments.

HORNET X®

This is one tough Hornet. The HORNET X has been engineered and tested to provide maximum protection against harsh chemical environments. Made of a specially formulated rubber, this flapper comes with a 10-year warranty. Add in the patented no rust, no kink chain, and you've just sold your best flapper.

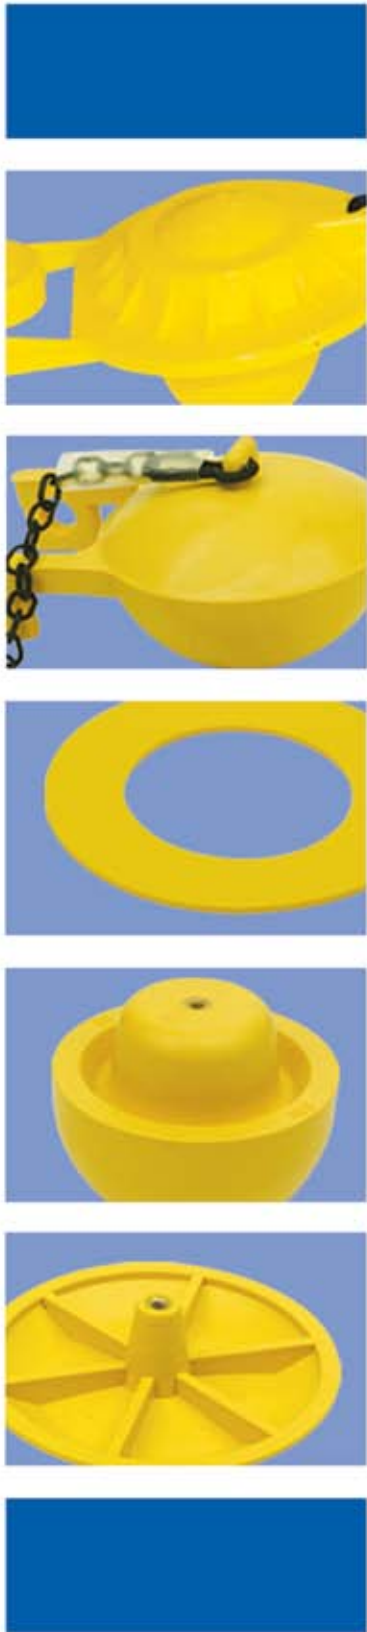

HORNET V®

This is one resilient Hornet. Like the HORNET X, it also withstands harsh chemical environments. Made of specially engineered vinyl, this premium flapper offers advanced quality. With a patented no rust, no kink chain and a 5-year warranty, your flapper problems end here. It's the only one of its kind in the plumbing industry.

HORNET®

This is one durable Hornet. Made of silicone coated rubber, the HORNET resists harsh chemical environments. It is also our most economical flapper. Tired of your flapper chain hanging up? This flapper includes a no rust, no kink chain. Look out, because the Hornet flapper will sting the competition.

- Easy to Install
- Specially Engineered to Resist Harsh Chemical Environments
- No Rust, No Kink Chain
- Superior Quality

Tough Parts. Easy Installation.

	Part No.	UPC	Description	Case Qty.	Case Wt. (lbs)	Ship CTN Cubic Feet
