BrassCraft®

Committed to quality. Driven by innovation.

BrassCraft Mfg. is a leading manufacturer of high-quality plumbing products for new construction, and repair and remodel markets. For over 65 years, the company has delivered innovative plumbing products designed to not only meet, but exceed the needs of the ever-changing plumbing industry. Headquartered and with manufacturing facilities in the U.S., BrassCraft Mfg. has made major investments in our manufacturing facilities and our people to be competitive while employing American workers.

Explain the new low lead legislation.

In official terms, the new low lead legislation prohibits the sale of plumbing fixtures with a wetted surface area containing more than a weighted average of .25% lead. This law virtually eliminates the lead content of pipes, pipe fittings or plumbing fittings and fixtures intended to convey or dispense water for drinking or cooking. Effective January 4, 2014, federal legislation will require that all products comply with this mandate.

What does BrassCraft have to offer?

As an industry leader, BrassCraft Mfg. is continuously developing solutions for the ever-changing plumbing industry. In 2009, we met California's low lead requirements as one of the first manufacturers to introduce a compliant line of products. We're proud to offer a full range of high quality compliant products including brass stops, solid brass fittings, hot water connectors and Speedi Plumb® risers for all of your plumbing needs.

When are the compliant products available?

The complete line is available now. Our products are not only 100% compliant but are competitively priced and manufactured here, in the USA. Look for BrassCraft packaging that displays a checkmark ✓ which assures the product you're purchasing is low-lead compliant.

How can I obtain updates about this new legislation and how it may affect the industry?

Visit www.brasscraft.com to find out more. Our website was designed to help you learn more about this legislation and what the industry is doing to comply.
